Welcome to the IBM Developer Connection!

The IBM® Developer Connection team is pleased to provide the tools that can help you **chart a course** and steer your solutions via the power of **e-business! Issue 2 of IBM Developer Connection Release 2, Volume 3** contains approximately 90 new entries. An annual subscription to the Developer Connection is your one-source to many IBM-related products and platforms and puts new technology at your fingertips. A Premier subscription includes more than 1000 leading-edge development tools to help build solutions on 16 platforms.

Here are some of the *new tools* available:

Member

- IBM SecureWay® Firewall Version 4.1 for AIX® and Windows NT®
- IBM WebSphere® Application Server, Advanced Edition V3.02 for Multiplatforms

Advanced

- Home Page Reader for Windows® Version 2.5
- VisualAge® for Java™ for Linux, Version 3.0
- VisualAge for Java, Professional Edition V3.0 for Multiplatforms

Premier

- DB2® Universal Database Enterprise Edition Version 6.1 for Linux
- IBM MQSeries® Integrator Version 1.1 for Multiplatforms
- IBM SecureWay Communications Server for AIX, V5.0.4
- IBM SecureWay Directory V3.1.1 for Multiplatforms
- IBM SecureWay Host On-Demand V4.0.1 for Multiplatforms
- IBM SecureWay Host Publisher Server V2.1
- IBM SecureWay Host Publisher Studio V2.1

PROGRAM INFORMATION

Read the README on the CDs for IMPORTANT Developer Connection information and last-minute updates. For specific product information, read the description files and individual product READMEs. Much of the content of the IBM Developer Connection is considered prerelease; while we have tried to make sure they will all install properly, we acknowledge that some problems might be inherent in individual programs. The prerelease code may be modified substantially before general availability. IBM does not guarantee that any of the prerelease programs contained on any of the CDs or the Web will ever be made generally available.

TECHNICAL SUPPORT

Electronic Support— for the IBM Developer Connection offering is provided through the Internet and the OS/2 BBS. To obtain technical support or exchange ideas or comments, Internet users may address their mail to **devcon@us.ibm.com**. The DEVCON CFORUM is on the OS/2 BBS under TalkLink (a feature under the IBMLink Commercial Services). For TalkLink access, U.S. customers can call 1-800-426-5465; other customers can contact their IBM Marketing Representatives.

Commercial Developer Support— if you develop applications for resale on IBM Operating Platforms or IBM Middleware then you may be able to obtain software technical support from the IBM PartnerWorld for Developers. For more information and to register, visit the IBM PartnerWorld for Developers Web site at http://www.developer.ibm.com/, or in North America, you may call the IBM PartnerWorld for Developer Hotline at 1-800-627-8363. Outside of the U.S., call 1-770-835-9902 or contact your IBM Marketing Representative.

Technical Support Contracts— if you need long term and in-depth support, you should purchase a technical support contract. Call one of the numbers below to purchase a contract. (**NOTE**: This information applies only to U.S., Canada, and Puerto Rico. Outside these countries, contact your local IBM representative or authorized IBM Supplier.)
